

## Information and Frequently Asked Questions

### Corporate Social and Environmental Sustainability

Travel and conferences can generate significant environmental impact. SAFET 2023 acknowledges that much of the impact cannot be removed, but we strive to reduce our footprint where we can. SAFET has taken the following initiatives to reduce your impact on the planet and Indonesia.

**Plastic** – refillable water bottles have been provided in your cotton tote bag and we have provided filtered water refill stations throughout the conference venue. We encourage the use of the refillable water bottles to reduce the plastic generated from bottled water.

**Electronic event** – the event signage and advertising is electronic only to avoid the printing of single use signs and advertising. Similarly, the conference program is provided through the Cvent Conference app being used for the SAEFT 2023 program.

**Catering** – of course we will only plan to cater for the number of registered participants, but we also don't want to you to hungry. This can generate large quantities of uneaten food. Rather than have this go to waste, SAFET has partnered with [SOS Food Rescue Operations](#). All left over food will be provided freely to SOS Food Rescue Operations who will distribute this food to Bali's Street Kids Orphanages. Not only does this ensure that these people have ongoing access to healthy nutritious meals, it also stops the food going into landfill and waste sites needlessly.

## Travelling to Bali

### Do I require a visa to visit Bali?

SAFET cannot provide any advice in relation to Indonesia's entry or visa requirements. You can explore visa requirements specific to your country at the Indonesian Directorate General of Immigration's website: <https://www.imigrasi.go.id/en/>

### Are there any cultural norms that I should be aware of in Bali?

Indonesia is the world's third largest democracy with the world's largest Muslim population. The Island of Bali is home to Indonesia's Hindu community. Although the Balinese are accustomed to tourists from a range of cultures, the following guidelines are provided to ensure our travel to Bali is culturally sensitive.

**Dress and act modestly** – beach wear should be worn at the beach only. Shoulders and legs must be covered when visiting temples.

**Don't use your left hand to touch or give** – this precaution has to do with the left hand being used primarily for hygienic purposes.

**Don't use your index finger to point or to beckon** – if you need to call attention to someone, beckon him/her to come by extending your hand and, with palm facing down, making a downward wave.

**Don't lose your temper** – the Balinese believe that raising one's voice is vulgar, being confrontational is offensive, and losing one's temper is simply shameful. Bali locals never show anger or passion openly, and find the Western tendency towards loudness and open emotion somewhat offensive.

**Don't touch people's heads** – the soul is supposed to reside in one's head, making it off limits for people to touch.

**Don't step on offerings (canang sari) in the street** – canang sari are offered to the Creator by locals first thing in the morning.

**Don't interrupt any religious processions** – religious processions in Bali occur fairly regularly, particularly during high holy days like [Galungan](#) and Nyepi. These Balinese religious processions take precedence over your trip, no question.

**For women**, don't enter any temple if you're menstruating.
